DETAILED ACTION

Election/Restrictions

Newly submitted claims 1-5, 7-8, and 21-23 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: By specifying "each of the elastomeric materials including an electrode disposed at least partially therein", applicant claims subject matter drawn to non-elected Species II shown in Fig. 3.

Since applicant has received an action on the merits for the originally presented invention (Species I shown in Fig. 2, elected without traverse), this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-5, 7-8, and 21-23 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Response to Amendment

The reply filed on February 13, 2006 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Since claims 1-23 are withdrawn from consideration as being directed to a non-elected invention due to the election by original presentation, there are currently no claims left to examine. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid

abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
